

TABLE 1

Table 1 compares the responses obtained from the survey question 31: *What is the situation of WASH in healthcare facilities?* and question 32: *What is the situation of WASH in isolation centres and quarantine facilities?*

QUESTION 31

Option	Percentage of selections across all answer options (adding up to 100% across all options)
lack of handwashing stations	20%
not accessible for people with mobility problems	18%
lack of menstrual hygiene management infrastructures	17%
lack of clean water	17%
lack of sex-disaggregated facilities and/or locking doors	13%
not accessible for pregnant women	12%
good	3%

QUESTION 32

Option	Percentage of selections across all answer options (adding up to 100% across all options)
lack of menstrual hygiene management infrastructures	17%
lack of clean water	17%
not accessible for people with mobility problems	17%
lack of handwashing stations	16%
lack of sex-disaggregated facilities and/or locking doors	13%
not accessible for pregnant women	13%
good	5%
Not aware	2%

TABLE 2

Table 2 presents the responses obtained from the survey question 18: *What is the level of participation of women and people with disabilities in the decision-making spaces related to WASH (e.g. managing community water, leading WASH committees, dealing with local government or decision-makers about WASH issues)?*

Option	Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)
women	%
low formal representation	37%
informally involved	37%
not included	14%
high formal representation	10%
key positions	3%

women with disabilities	%
not included	54%
low formal representation	28%
informally involved	15%
key positions	1%
high formal representation	1%

men with disabilities	%
informally involved	43%
not included	29%
low formal representation	22%
key positions	3%
high formal representation	3%

TABLE 3

Table 3 shows the responses obtained from the survey question 7: *Who is usually responsible for the following activities within households? Please consider the pre- crisis situation*

Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)	HUSBAND	WIFE	GIRL CHILD	BOY CHILD	GRANDMATHER	GRANDFATHER
household chores	18%	93%	44%	13%	24%	11%
caregiving (especially sick people)	16%	97%	28%	4%	25%	25%
childcare	13%	96%	31%	3%	34%	11%
collection, handling and storage of water	14%	90%	58%	19%	15%	3%
family's hygiene and sanitation practices	33%	92%	47%	18%	16%	7%
