

JMP Equality Checklist¹

When examined as a whole, do the goals, targets, and indicators:

- Prioritize basic access and focus on progressive realization toward safe and sustainable WASH for all, while reducing inequalities?
- Address spatial inequalities, such as those experienced by communities in remote and inaccessible rural areas and slum-dwellers in (peri-) urban areas?
- Focus on inequalities, shining the light on the poorest of the poor?
- Address group-related inequalities that vary across countries, such as those based on ethnicity, race, nationality, language, religion, and caste?
- Attend to the impacts of individual-related inequalities that are relevant in every country of the globe, such as those based on sex/gender, age, disability, and health conditions imposing access constraints- experience both inside and outside the household? Do they address menstrual hygiene management?
